

APPENDIX 3 ATC
DATA FROM SITES ON KEY CENTRE CORDON

ATC DATA FROM SITES ON KEY CENTRE CORDON

ATC surveys for sites on Key Centre Cordons were not conducted in September - October 2010. Data from September - October 2009 is below.

This section presents profiles of traffic entering the key centre, derived from automatic traffic counts over two consecutive weeks in September-October 2009 on roads with at least 2000 vehicles per day.

The first sheet presents total traffic flows. The five day average flow for time period 0700-1000, combined with those from the other key centres in Greater Manchester (excluding Manchester), provides the 2009/10 data for the mandatory indicator LTP6b: Peak traffic flows to other Greater Manchester key centres.

The second and subsequent sheets present data for each site as follows:
